Please share your experience at WCBCS and the impact it has made in your life.

The courses that are offered at WCBCS have been amazing and relevant to my real world work experience. As a bi-vocational church administrator, the courses that I have taken in business have matched the projects and deliverables that I have been assigned over the years. The biblical courses have been essential in helping me to better prepare for sermons, and to better understand how to apply the Bible while keeping everything in context. But even more importantly, the business courses on business, management, accounting, etc have been most beneficial and applicable in my current work environments. I have worked for top technology companies and financial institutions in Southern California.
